An opportunity has arisen for a caring, experienced, hard working and highly motivated RGN to join our team. The Hospice is continually exploring innovative ways to ensure we have the skills to care for the diverse and complex needs of our patients, therefore, you should have substantial clinical experience within emergency or acute care. You should be educated to at least diploma level, with a willingness to study to degree level. A teaching and assessing qualification/experience is essential. This is an opportunity for someone to develop their own skills in specialist palliative care, with excellent opportunity for further education and development.
